

File Management

Use only numbers and letters for images and a maximum of 6 characters

All images must be sized properly before submission unless they are to edit

There are two folders on the ftp site called To Print and To Edit. Place your images in the appropriate folder.

For the To Print folder, create sub folders by print size – Example 5x7 folder and place all 5x7s inside.

The To Edit folder, place (tiff's) the original size from camera and attach a jpeg with the crop you prefer

Then email AB Images with your order form. At
